

An Informative Two-day Seminar:

Blueprint for a Safety and Health Management System

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. This course is a MTI Level One course. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

The attendee will learn that a direct relationship exists between effective management and lower workplace injury and illness rates. This class uses continuous improvement tools and methodology to effect increased worker protection, lower costs, enhanced productivity, and improved employee morale. Attendees will learn that a high level of employee involvement leads to continuous improvement of the safety and health management system. When effort and accountability are focused proactively, costly reactive activities can be eliminated.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ System Dynamics
- ▶ Management Commitment
 - ▶ Selling Safety to Management
 - ▶ Accountability
- ▶ Employee Involvement
 - ▶ Committees, Decision Making, Problem Solving
- ▶ Safety Training Emphasizing Job Hazard Analysis
- ▶ Hazard Identification and Control
- ▶ Incident/Accident Investigation
 - ▶ A Problem-solving Approach
- ▶ Plan Evaluation

Required Class for
General Industry
Level One
MTI Certificate

This course has been approved for residential builders pre-licensure safety training requirements.

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

Presenters

Brian Kellogg joined the MIOSHA Consultation Education Training Division in 2010 as a Safety Consultant specializing in general industry and serves the employers/employees in the mid-Michigan area.

Prior to joining MIOSHA he was the Environmental Health and Safety Manager for an industrial air-moving equipment manufacturer with facilities located in Ohio and Indiana. Brian has experience with safety and environmental compliance in fiberglass, fabrication, welding, machine shop, foundry, paint, and assembly operations. He also spent time as an industrial equipment and machine operator. During his years in private industry Brian developed relationships with local first responder agencies, represented his employer in complaints with OSHA, and defended against citations from state and federal EPA.

Brian earned his Bachelor's degree in Environmental Science from Alaska Pacific University in 2002. Throughout his educational experiences, Brian spent time working with Alaska's marine wildlife and participated in research connected to the Exxon Valdez oil spill.

Brian Kellogg
*Occupational Safety Consultant,
MIOSHA, CET Division*

Presenters: Brian Kellogg, Occupational Safety Consultant; and Anthony Neroni, Senior Occupational Safety Consultant; MIOSHA, CET Division

Program Details
